

FT25C-1

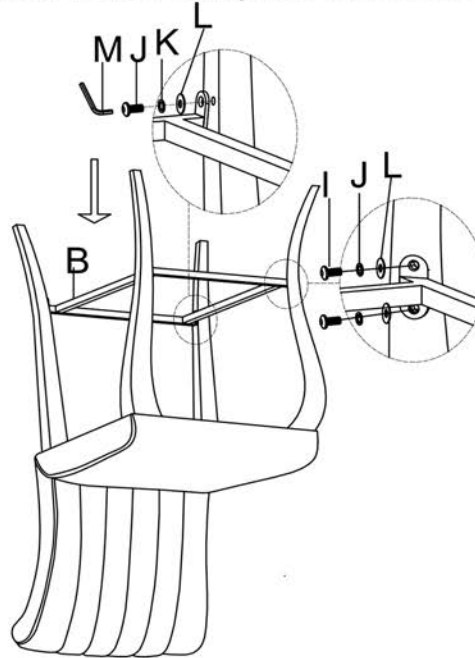

STEP1

Install all four legs first without tightening the screws

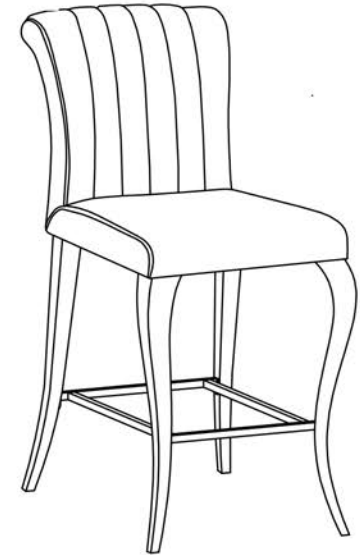

STEP2

After installing the connecting frame with four chair legs, tighten the four dining chair foot screws

STEP3

1.Prohibit to use iron brush or corrosive chemical detergent including acidity, alkalinity , salt to clean stainless steel.

Only allow using professional stainless steel cleaning detergent. Otherwise, stainless steel will get rusty!

2.Under normal circumstance, stainless steel is anti-rusted, in serious pollution area such as seaside, brickyard, ceramics factory, electroplating factory and districts with heavy acid rain, stainless steel will get rusty!
